Lynchburg, VA | linkedin.com/in/jdgeisler | jdgeisler.com

Cybersecurity-focused Computer Science Senior with hands-on experience in system hardening and cloud infrastructure

EDUCATION

B.S. Computer Science: Cybersecurity (ABET-accredited) ***EXPECTED MAY 2027***

Liberty University, Minor in Strategic and Intelligence Studies *Lynchburg, VA*

- **Dean's List**: Awarded for Fall 2024 and Fall 2025 semesters
- **Certifications:** CompTIA Security+ | Pursuing AWS Certified Solutions Architect Associate (SAA-C03) and AWS Certified AI Practitioner

SKILLS & OTHER

- **Languages:** Python, C++, C, C#, SQL, Bash, PowerShell, HTML/CSS, ASM(x86, ARM), familiarity with Java
- **Operating Systems:** Windows 10/11, Windows Server 2019; Linux (Debian, CentOS, Rocky, Arch, RHEL)
- **Networking:** TCP/IP, DNS, DHCP, VPNs, pfSense, Wireshark, Nmap, tcpdump, SSH, FTP, ZeroTier
- **Tools & Platforms**: Proxmox, VMware vSphere, VirtualBox, Docker, Git, Burp Suite, Apache, NGINX
- **Cloud:** AWS (EC2, ECS, EKS, CloudTrail, GuardDuty), Microsoft Azure

WORK EXPERIENCE

Security Engineer Intern, *Amazon Web Services (AWS) | GuardDuty* *MAY 2026 – AUG 2026*

- Engineered runtime and CloudTrail detections for AWS GuardDuty to identify supply chain credential theft campaigns, including the **Shai-Hulud** malware affecting **800+** compromised npm/PyPI packages
- Built an attack simulation framework to validate GuardDuty detections against real-world supply chain attacks, improving detection coverage while minimizing false positives.
- Partnered with the **Extended Threat Detection (XTD)** and **Runtime Monitoring** teams to integrate new detection signals into AttackSequence findings.

Cybersecurity Consultant (Contract), *Liberty Analytic Support Initiative* *JAN 2026 – MAY 2026*

- Produced intelligence assessments supporting **U.S. national security and law enforcement** stakeholders
- Briefed the **FBI Richmond Field Office** and other federal partners on analytic findings and recommendations
- Selected through a competitive faculty nomination and interview process for a student-led intelligence analysis program supporting federal agencies.

IT Support Technician (Contract), *CBTS Technology Solutions* *MAY 2025 – JULY 2025*

- Delivered remote and onsite support for **Azure cloud** migrations supporting **30+** end users
- Resolved email, authentication, VPN, and remote access incidents to maintain service availability
- Assisted in migrating legacy systems to Microsoft Azure, improving scalability and security posture
- Supported end users through enterprise system transitions with **~95%** smooth completion

TECHNICAL EXPERIENCE

Team member (SSH/FTP Services Specialist), *National Centers of Academic Excellence* *NOV 2024 – MAR 2025*

- **NSA-sponsored** National Centers of Academic Excellence Cyber Games Competition
- **Placed 2nd** in the regional NCAE Cyber Games 2025
- Maintained **~68%** SSH and FTP service uptime during sustained live Red Team attacks
- Configured and secured **FTP** and **SSH** services on CentOS and Kali Linux under adversarial pressure
- Collaborated with a 10-member team to defend simulated enterprise infrastructure in real time
- Conducted Linux **threat hunting** and malware analysis across compromised systems

LEADERSHIP EXPERIENCE

Cybersecurity Club President *MAY 2026 – PRESENT*

- Lead club officers in planning technical workshops, CTF events and speaker engagements
- Collaborate with faculty and department leadership to align initiatives with academic goals
- Organize intercollegiate cybersecurity competition participation to expand hands-on training
- Lead introductory meetings for freshmen to learn cybersecurity fundamentals
